

Step 1: Open <http://localhost:8080/Plone> and click ‘Log in’

The screenshot shows the Plone website's home page. At the top, there is a blue header with the Plone logo on the left and a 'Log in' link on the right. Below the logo, a navigation bar contains links for 'Home', 'News', and 'Events'. To the right of these links is a search bar with the placeholder text 'Search Site' and a 'Search' button. Below the navigation bar, the main content area has a light gray background. It starts with the heading 'Plone Site' followed by the subtitle 'A Plone Site with Classic UI'. Below this is a large 'Welcome!' heading, followed by a blue button labeled 'Learn more about Plone'. A paragraph of text follows, stating that if the user is seeing this text instead of the expected website, it means the owner has just installed Plone and they should not contact the Plone Team or support channels. This is followed by a 'Get started' heading and a paragraph advising the user to perform certain actions before exploring the site. A list of three numbered steps follows: 1. Log in as an admin/manager user. 2. Set up a valid SMTP server. 3. Decide on security levels and self-registration policies. Finally, there is a 'Get comfortable' heading and a paragraph suggesting further actions, followed by a bulleted list of links to news, documentation, training, add-ons, and support channels.

Plone Site

A Plone Site with Classic UI

Welcome!

[Learn more about Plone](#)

If you're seeing this text instead of the web site you were expecting, the owner of this web site has just installed Plone. Do not contact the Plone Team or the Plone support channels about this.

Get started

Before you start exploring your newly created Plone site, please do the following:

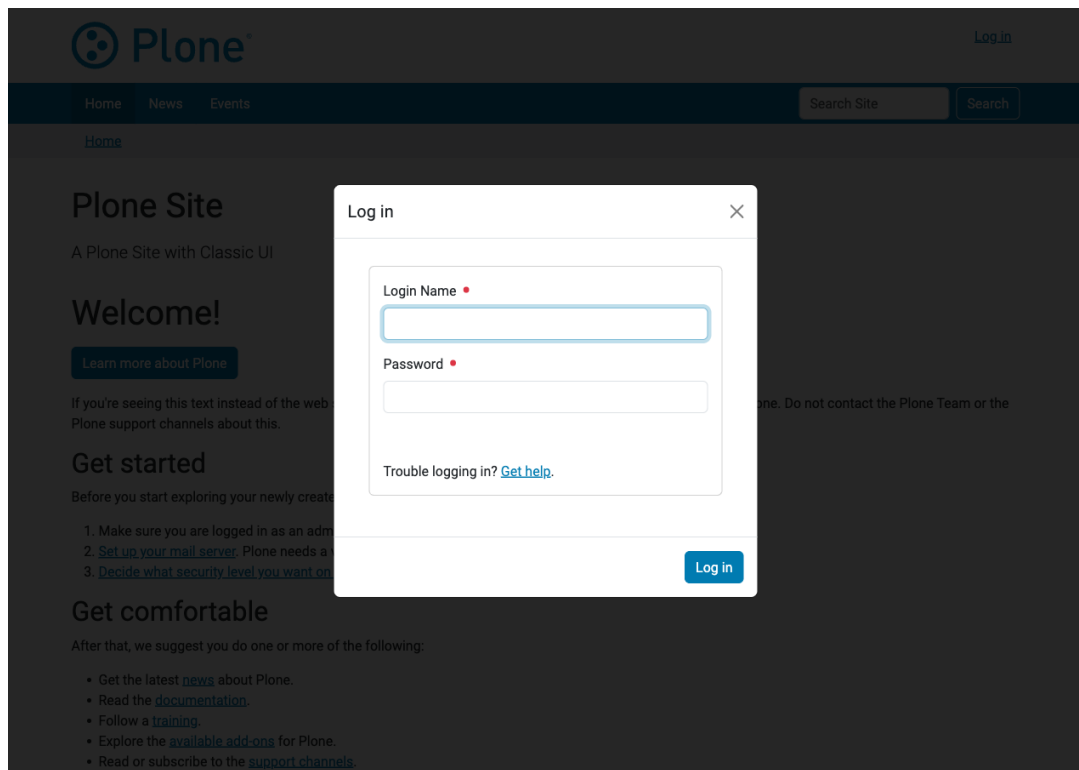

1. Make sure you are logged in as an admin/manager user. You should have a Site Setup entry in the user menu.
2. [Set up your mail server](#). Plone needs a valid SMTP server to verify users and send out password reminders.
3. [Decide what security level you want on your site](#). Allow self registration, password policies, and more.

Get comfortable

After that, we suggest you do one or more of the following:

- Get the latest [news](#) about Plone.
- Read the [documentation](#).
- Follow a [training](#).
- Explore the [available add-ons](#) for Plone.
- Read or subscribe to the [support channels](#).

Step 2: Enter login name and password, then press ‘Log in’

Step 3: Login successful: your name appears at the bottom of the left toolbar
