

Step 1: Open <http://localhost:8080/Plone> and click ‘Log in’

The screenshot shows the Plone website's home page. At the top, there is a blue header with the Plone logo on the left and a 'Log in' link on the right. Below the logo, a navigation bar contains 'Home', 'News', and 'Events' links. To the right of these links is a search bar with the placeholder text 'Search Site' and a 'Search' button. Below the navigation bar, the main content area has a light gray background. It starts with the heading 'Plone Site' followed by the subtitle 'A Plone Site with Classic UI'. Below this is a large 'Welcome!' heading, followed by a blue button labeled 'Learn more about Plone'. A paragraph of text follows, stating that if the user is seeing this text instead of the expected website, it means the owner has just installed Plone and they should not contact the Plone Team or support channels. This is followed by a 'Get started' heading and a paragraph advising the user to perform certain actions before exploring the site. A list of three numbered steps follows: 1. Log in as an admin/manager user. 2. Set up a valid SMTP server. 3. Decide on security levels and self-registration policies. Finally, there is a 'Get comfortable' heading and a paragraph suggesting further actions, followed by a bulleted list of five items: getting the latest news, reading the documentation, following training, exploring add-ons, and reading or subscribing to support channels.

Plone Site

A Plone Site with Classic UI

Welcome!

[Learn more about Plone](#)

If you're seeing this text instead of the web site you were expecting, the owner of this web site has just installed Plone. Do not contact the Plone Team or the Plone support channels about this.

Get started

Before you start exploring your newly created Plone site, please do the following:

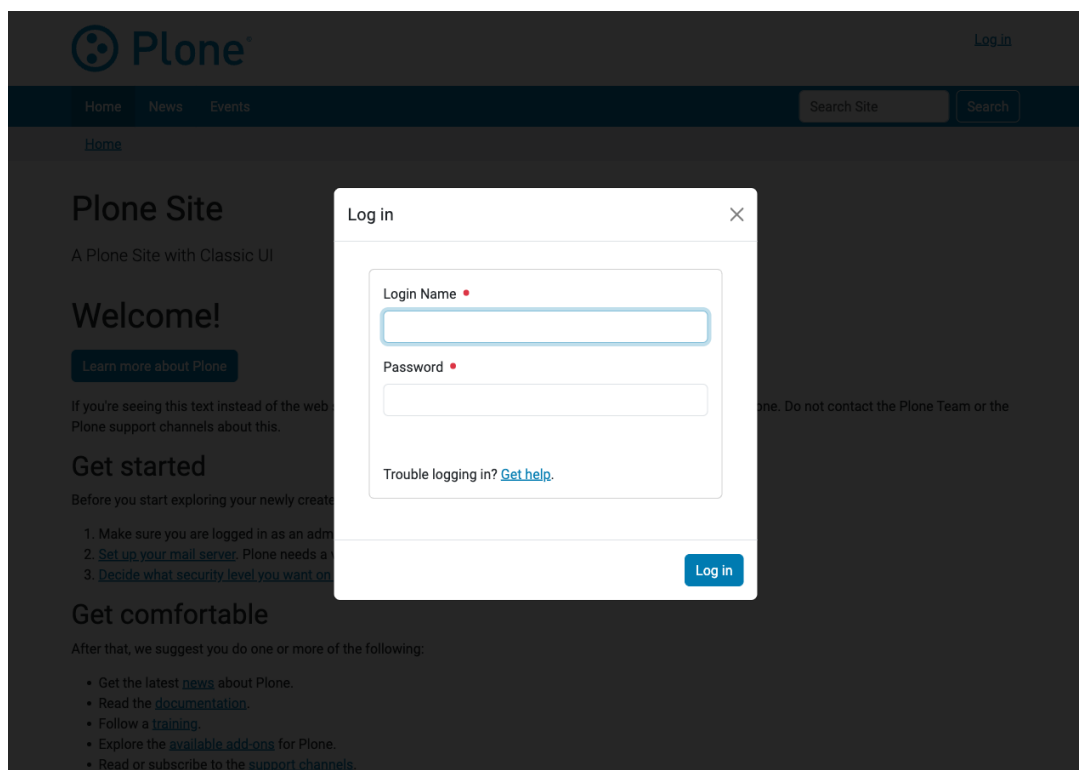

1. Make sure you are logged in as an admin/manager user. You should have a Site Setup entry in the user menu.
2. [Set up your mail server](#). Plone needs a valid SMTP server to verify users and send out password reminders.
3. [Decide what security level you want on your site](#). Allow self registration, password policies, and more.

Get comfortable

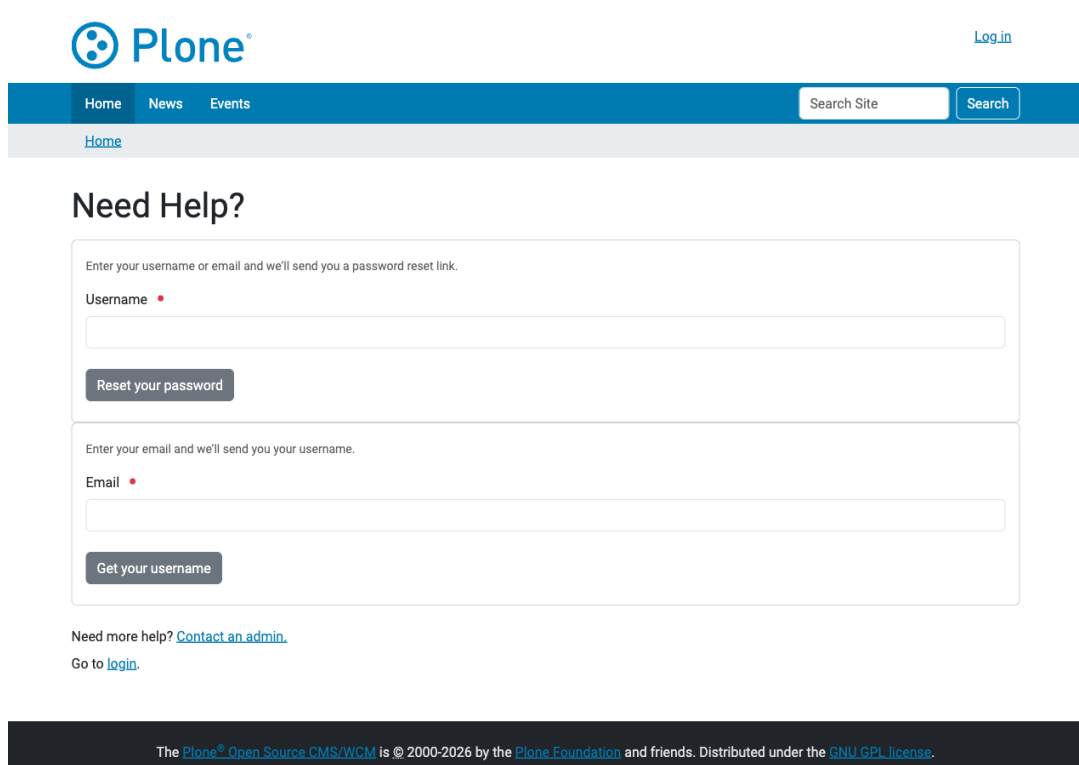

After that, we suggest you do one or more of the following:

- Get the latest [news](#) about Plone.
- Read the [documentation](#).
- Follow a [training](#).
- Explore the [available add-ons](#) for Plone.
- Read or subscribe to the [support channels](#).

Step 2: Click ‘Get help’

Step 3: The reset password page

Step 4: Enter username and click ‘Reset your password’

Step 6: The form for setting a new password

The screenshot shows the Plone website's 'Set your password' form. The header includes the Plone logo, a 'Log in' link, and a navigation bar with 'Home', 'News', and 'Events' links, along with a search bar. The main heading is 'Set your password', followed by the instruction 'Please fill out the form below to set your password.' The form is titled 'New Password' and contains three input fields: a large empty field for the username, a field for the new password, and a field for the confirm password. A yellow highlight is placed over the first input field with the text 'The form for setting a new password'. Below the fields is a blue button labeled 'Set my password'. The footer contains copyright information for the Plone Foundation and the GNU GPL license.

Step 7: Enter username and new password then press 'Set my password'

This screenshot shows the same 'Set your password' form as in Step 6, but with user input. The username field contains 'bonobo', the new password field contains a series of dots, and the confirm password field also contains a series of dots. A yellow highlight is placed over the confirm password field with the text 'Enter username and new password then press 'Set my password''. The 'Set my password' button is still visible at the bottom of the form. The footer remains the same as in Step 6.

Step 8: Password reset successful: you are logged in now

The screenshot shows the Plone website interface. On the left is a dark sidebar with a back arrow icon and the user name 'Bonobo Chump'. The main content area has a blue header with the Plone logo and navigation links for Home, News, and Events. A search bar is located on the right. Below the header, a light blue information box displays the message: 'Info: Password reset successful, you are logged in now!'. The page title is 'Plone Site', created by 'admin' on May 30, 2026. It describes the site as 'A Plone Site with Classic UI' and includes a 'Welcome!' section with a 'Learn more about Plone' button. A paragraph explains that this text appears because the site is newly installed. The 'Get started' section lists three steps: logging in as an admin, setting up a mail server, and deciding on security levels. The 'Get comfortable' section suggests further actions.
